SAURAV KUMAR

Patna, Bihar 800002 | +91-7903770587 | souravkumarsk@gmail.com | linkedin.com/in/saurav-kumar-79b34b67

PROFESSIONAL SUMMARY

Results-focused Monitoring & Evaluation (M&E) professional with 8 years of experience in indicator tracking, data quality assurance (DQA), capacity building, and performance reporting across public health programs in Bihar. Demonstrated expertise in NIKSHAY-based M&E systems, HMIS data management, and stakeholder coordination with District TB Officers, State TB Cell, and NHM across 22 districts. Proven record of contributing to TB elimination, COVID-19 response, nutrition, and Global Fund-supported DR-TB programs. Seeking a senior M&E or data management role within NGO, government, or development sector organizations.

CORE COMPETENCIES

Monitoring & Evaluation (M&E) | Data Quality Assurance (DQA) | KPI & Indicator Tracking | NIKSHAY Portal | HMIS / MIS Management | Performance & Donor Reporting | Capacity Building | Community Mobilization | Government Health Coordination | Quantitative & Trend Analysis | Data Validation & Auditing | Field Data Supervision | MS Office Suite | Diploma in Computer Application (DCA)

WORK EXPERIENCE

Monitoring & Evaluation (M&E) Executive | Doctors For You *Jul 2024 – Present*

Program: National TB Elimination Program (NTEP) | Bihar | 22 Districts | Global Fund DR-TB Project

- Sustain a 70% Treatment Success Rate (TSR) across 6 TB program KPIs — HIV co-infection screening, Diabetes Mellitus (DM) testing, UDST, DBT, Contact Tracing, and Follow-up — by designing and operating a NIKSHAY-based M&E tracking system covering 53 blocks across 6 districts in Bihar, monitoring approximately 45 patient cases daily.
- Improve stakeholder visibility of ground realities — including a redesigned monthly performance report format incorporating field-level barriers and TB patient recovery success stories — by producing up to 5 monthly and ad-hoc performance reports for internal leadership, District TB Officers, and State TB Cell, transforming reporting beyond raw numerical data.
- Reduce field-level data entry errors by 40% across 6 districts by designing and delivering M&E protocol and data quality assurance (DQA) training to 40 project staff and healthcare workers, strengthening indicator tracking compliance program-wide.
- Sustain data reliability across all TB program KPIs by conducting monthly data audits — escalated to weekly cycles during critical reporting periods — identifying and resolving 5–20 data discrepancies per audit cycle across 53 blocks in 6 districts.
- Ensure 100% program compliance with national TB control guidelines — verified through zero flags in government review — by coordinating directly with District TB Officers, State TB Cell, and NHM across 22 districts in Bihar.
- Contributed to drug-resistant TB (DR-TB) program monitoring under a Global Fund-supported project in Bihar, applying M&E frameworks and NIKSHAY-based indicator tracking to support patient case management and donor reporting.

Data Manager (MMU Project) | Doctors For You *Sep 2023 – Jun 2024*

Program: Mobile Medical Unit (MMU) | Bhojpur District, Bihar

- Maintained data confidentiality and integrity across the complete M&E data lifecycle — collection, entry, validation, and storage — for a patient database averaging 400 daily records across 2 systems, with weekly backup compliance and real-time access for 5 program staff across Bhojpur district.
- Reduced duplicate and erroneous data entries by 35% by designing and rolling out standardized data entry protocols for a 2-member data entry team, improving overall database reliability and HMIS reporting accuracy.
- Ensured zero data loss across 2 project databases by establishing a structured weekly backup and maintenance schedule, sustaining uninterrupted data access for program staff throughout the project cycle.
- Enabled data-driven decision-making for project management and district health authorities by generating 30 daily, 4 weekly, and 1 monthly performance report covering patient demographics, treatment outcomes, and service delivery KPIs across 7–8 active village sites in Bhojpur district.

Block Coordinator (COVID-19 Project) | Doctors For You *Feb 2022 – Nov 2022*

Program: COVID-19 Community Response | Bhojpur District, Bihar

- Achieved 75% of program targets — including 40,000 COVID-19 vaccinations administered — across 36 villages in 1 block by leading community needs assessments and developing targeted block-level COVID-19 intervention strategies over a 9-month project period.
- Met COVID-19 outreach KPIs by managing and capacity building a 29-member field team (5 field workers + 24 volunteers), coordinating daily operations across 36 villages to execute community health activities within program timelines.
- Delivered measurable behavioral change in COVID-19 prevention practices among 4,500 community members by planning and executing 95 community engagement activities — 60 community meetings, 30 awareness campaigns, and 5 nukkad nataks — across 36 villages in Bhojpur district.

NOC Room In-charge | MC4 Manpower Pvt. Ltd. *2021 – 2022*

- Maintained zero major security incidents throughout tenure by supervising an 80-person surveillance team, monitoring 14 CCTV checkpoints, and enforcing standard operating procedures across single-shift operations.
- Prevented security escalations by establishing a structured daily risk briefing and reporting protocol, identifying and resolving approximately 30 flagged risk incidents per month before escalation to management.

Information Technology Support | Sunset Infrasoft Pvt. Ltd. *2020 – 2021*

- Maintained IT operational continuity for 100+ staff by managing end-to-end IT operations — including OS updates, software deployment, and hardware troubleshooting — resolving 60 onsite support tickets per month alongside 5 daily remote support sessions.
- Supported management decision-making by generating and maintaining 10 MIS reports tracking system performance and IT asset status, ensuring consistent and accurate delivery throughout tenure.

Field Officer (Malnutrition Project) | Doctors For You *2019 – 2020*

Program: Community Nutrition Intervention | Patna District, Bihar

- Improved nutritional health outcomes for 350 beneficiaries across 3 areas in Patna by implementing community-level malnutrition intervention strategies — including screening, referrals, and household-level support — across 7 Anganwadi kendras.
- Accelerated program target achievement by coordinating with Anganwadi workers, ASHA workers, and Panchayat stakeholders across 7 Anganwadi kendras to align community nutrition activities with project goals and NHM protocols.

Service Engineer (IT Assets) | East Central Railway (NITT) *2015 – 2016*

- Maintained same-day resolution for all technical support requests — averaging 1 call per day — by diagnosing and resolving hardware and software faults across computer systems and network infrastructure at the railway facility.
- Improved system reliability by implementing a preventive maintenance schedule for IT assets, reducing unplanned downtime and sustaining network uptime throughout the engagement.

EDUCATION

B.Sc. in Mathematics — Magadh University *2015 – 2018*

Higher Secondary (I.Sc.) — Bihar Board *2013 – 2015*

High School — Bihar Board *2013*
